

For over 25 years, DPC creates and manufactures furniture for public sector spaces. The family business established in Bressuire, France, has been growing ever since. Thanks to a dynamic and ambitious management based on manufacturing with local partners, the DPC Group provides today over 350 jobs.

This organisation gathering design, marketing and manufacturing has given rise to values and assets which are central to our success:

- Exchanging and sharing: dialogue, listening, advising, proximity, friendliness.
- Respect: for people and commitments undertaken.
- Competence: recognised and certified quality, supervised manufacturing, French production.
- Creativity: through innovation, design and communication.

In order to better meet your needs, DPC offers a complete service without intermediaries. This direct link with the administrative team and the research department offers an effective support for carrying out your interior design projects.
