DPC
FURNITURE DESIGNER

FRENCH FURNITURE MANUFACTURER

For over 25 years, DPC creates and manufactures furniture for public sector spaces. The family business established in Bressuire, France, has been growing ever since. Thanks to a dynamic and ambitious management based on manufacturing with local partners, the DPC Group provides today over 350 jobs.

This organisation gathering design, marketing and manufacturing has given rise to values and assets which are central to our success:

- Exchanging and sharing: dialogue, listening, advising, proximity, friendliness.
- Respect: for people and commitments undertaken.
- Competence: recognised and certified quality, supervised manufacturing, French production.
- Creativity: through innovation, design and communication.

In order to better meet your needs, DPC offers a complete service without intermediaries. This direct link with the administrative team and the research department offers an effective support for carrying out your interior design projects.

Tabletops

Our tabletops are made for an intense use and meet the current standards requirements (density, abrasion resistance, impact resistance, formaldehyde emission...). They provide the guarantee of a reliable and durable product.

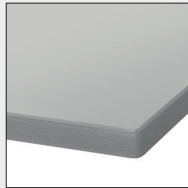

The wood used in our tabletops comes exclusively from sustainable controlled forests.

MELAMINE TABLETOP, ABS EDGES

19mm thick melamine surface chipboard top.

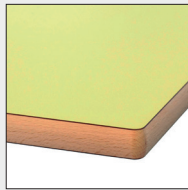

2mm thick ABS edges glued on the edge of the tabletop

LAMINATED TABLETOP, ABS EDGES

22mm thick counterbalanced laminated chipboard top.

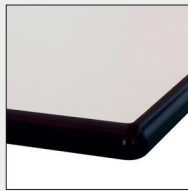

2mm thick ABS edges glued on the edge of the tabletop

LAMINATED TABLETOP, WOODEN EDGES

22mm thick counterbalanced laminated chipboard top.

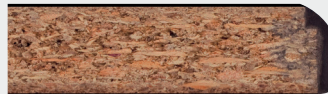

Wooden edges glued on the edge of the top and covered with 0.9mm laminate

LAMINATED TABLETOP, BLACK MOULDED EDGES

22mm thick counterbalanced laminated chipboard top.

Black moulded edges made of polyurethane resin which covers the tabletop edge. No seal. Extremely resistant to shocks.

Sizes

User's size	93 to 116 cm	108 to 121 cm	119 to 142 cm	113 to 159 cm	146 to 176,5 cm	159 to 188 cm	174 to 207 cm
Chair : seat height	26 cm	31 cm	35 cm	38 cm	43 cm	46 cm	51 cm
Table : tabletop height	46 cm	53 cm	59 cm	64 cm	71 cm	76 cm	82 cm

Standards

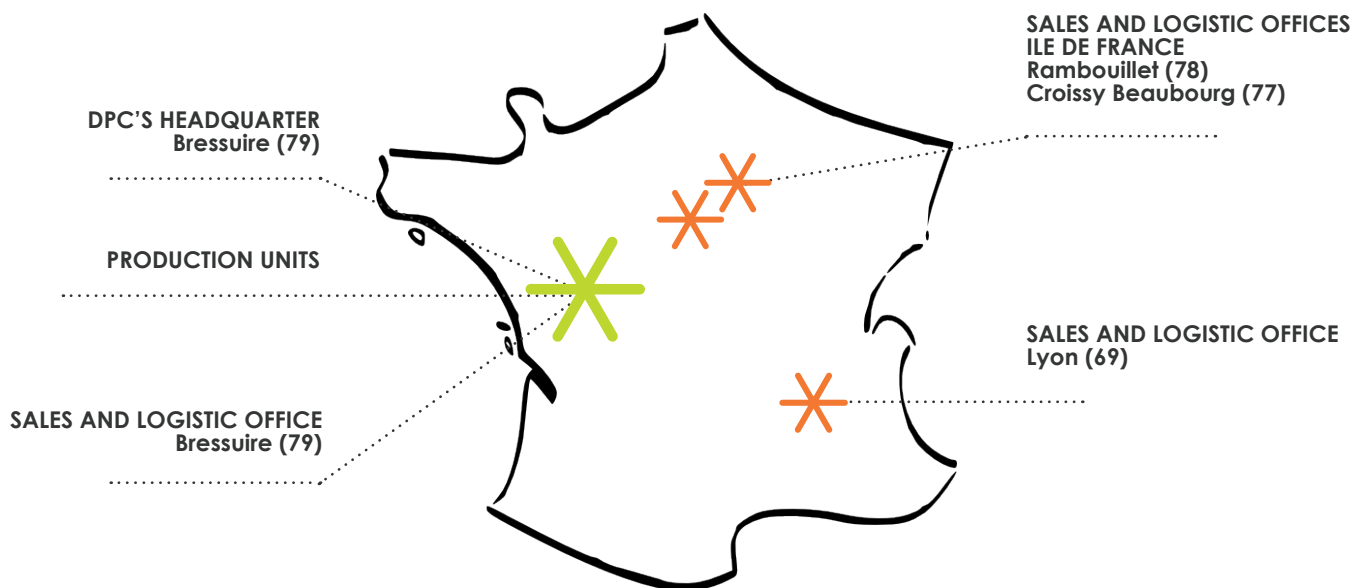

Our products meet the current standards requirements (NF EN 1729-1, NF EN 1729-2...) as well as «NF Education», «NF Collectivités», «NF Environnement» and PEFC.

The NF Environnement mark is the only official French eco-label. It is overseen by AFNOR Certification and is recognised by the Ministry for the Environment. It gathers 20 criteria and corresponds to a total step taking account the various stages of the life cycle of the products. To get the NF Environment ecolabel, you need to satisfy precise requirements. This mark is only applicable to good quality products and before it can be certified, the furniture has to comply with strict regulations.

The NF mark is a collective certification mark. It guarantees the quality and safety of the products and services certified. The NF mark assures compliance not only with current standards but also with additional quality criteria that meet consumer's needs. The products and their production sites as well as NF services are regularly checked. This is to ensure that you receive a constant level of quality.

PEFC is the world's largest forest certification system. PEFC works throughout the entire forest supply chain to promote good practice in the forest and to ensure that timber and non timber forest products are produced with respect for the highest ecological, social and ethical standards. Thanks to its eco-label, customers and consumers are able to identify products from sustainably managed forests.

All our products are manufactured in our 6 production units located in Bressuire, FRANCE. Each factory is specialised in wood, metal or both and can respond to any demand.

All our products have a 10 year warranty.

IDEA

- > Use of recyclable materials
- > Create a fully unassembled table

PRODUCTION

- > No weld so less CO2 emission

TRANSPORTATION

- > Intelligent packing so less volume to carry
- > Less lorries on roads

USE

- > Unassembled table so easy repairs
- > Delivery of spare parts

PRODUCT END OF LIFE

- > 100% recyclable structure
