

# Korytem

M U L T I M E D I A   L I B R A R Y

*To see true, you must first dream what you see. Under these arches of glass, this chamber of a thousand works is filled with delicate music, elegant verse and baroque tones. Music is the kin of geometry. Emotions envelop the enigmas of encyclopedias and wander on waves of imagination.*

**K**orytem

M U L T I M E D I A L I B R A R Y

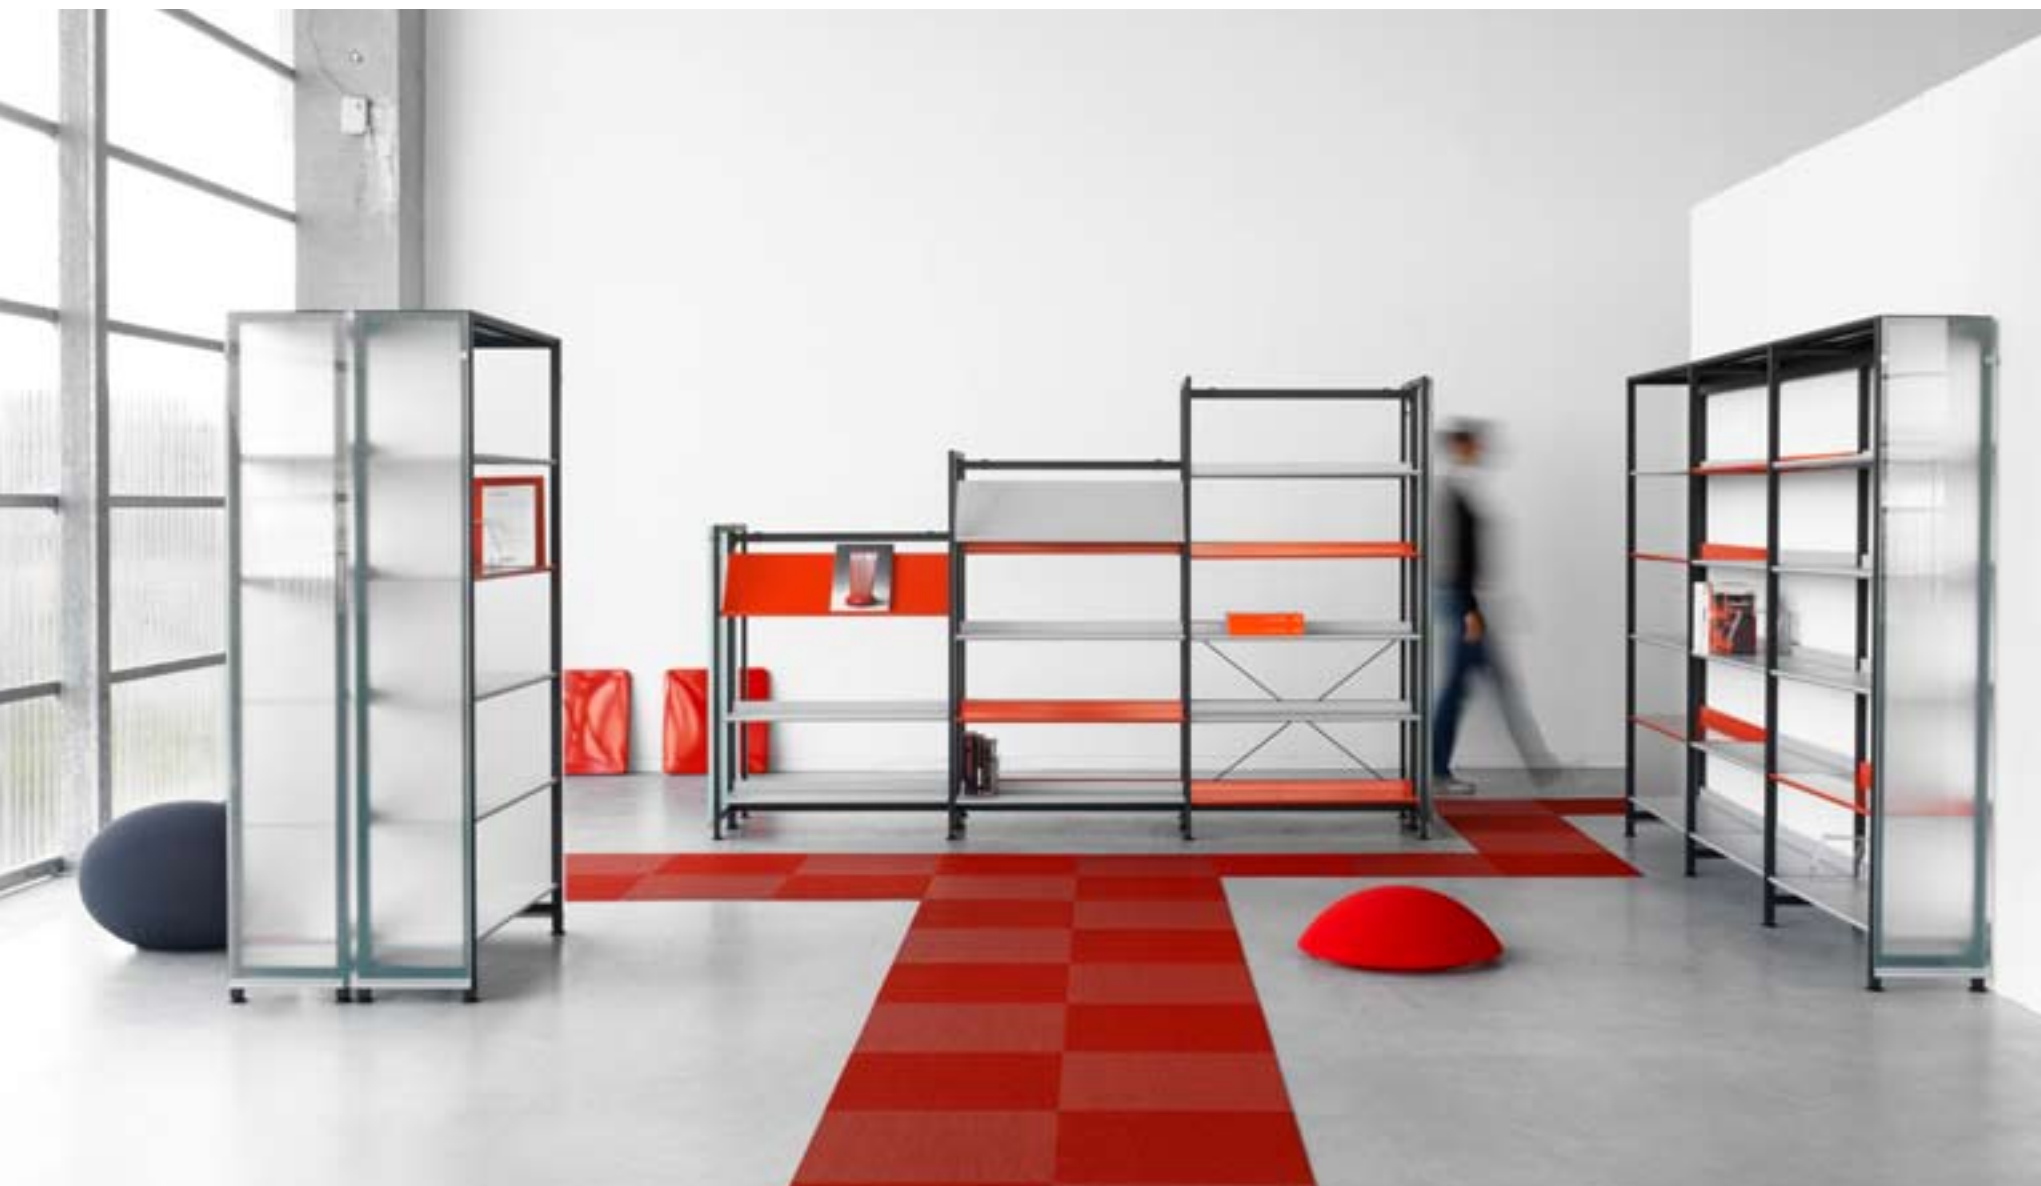

# Korytem

M U L T I M E D I A L I B R A R Y

*KORYTEM* comprises fluid modular structures that combine sturdiness and sophistication to create a subtle alliance. Its refined lines exude modernity and timelessness. Sober and practical designs modulate the infinitesimal passage of light. *KORYTEM* is a composition of precision that provides intuitive and easy use.

## Rectangular section frames

Suggested presentation features single and double-sided bays, end panels of different heights, and flat and adjustable sloping shelves. The double-sided bays comprise single-sided units placed back to back.

Patent connecting system

Upper corner shows no weld

Adjustable feet  $\varnothing$  40 mm

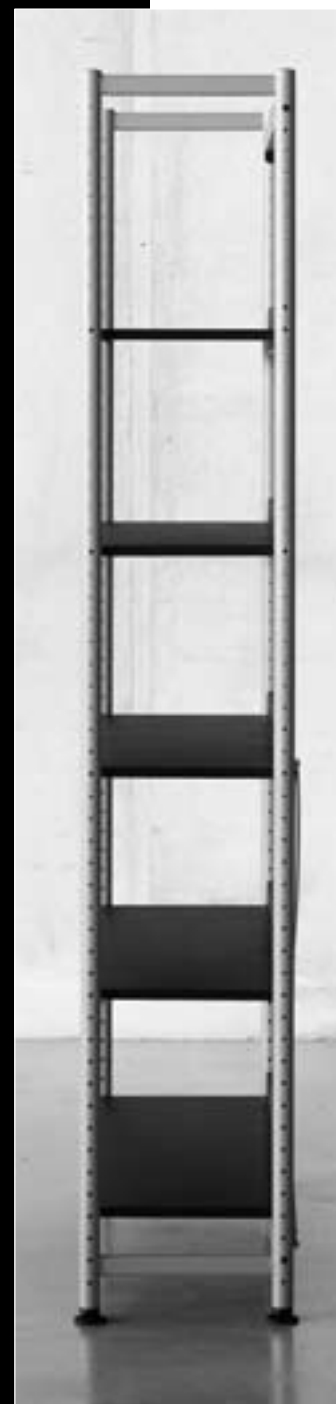

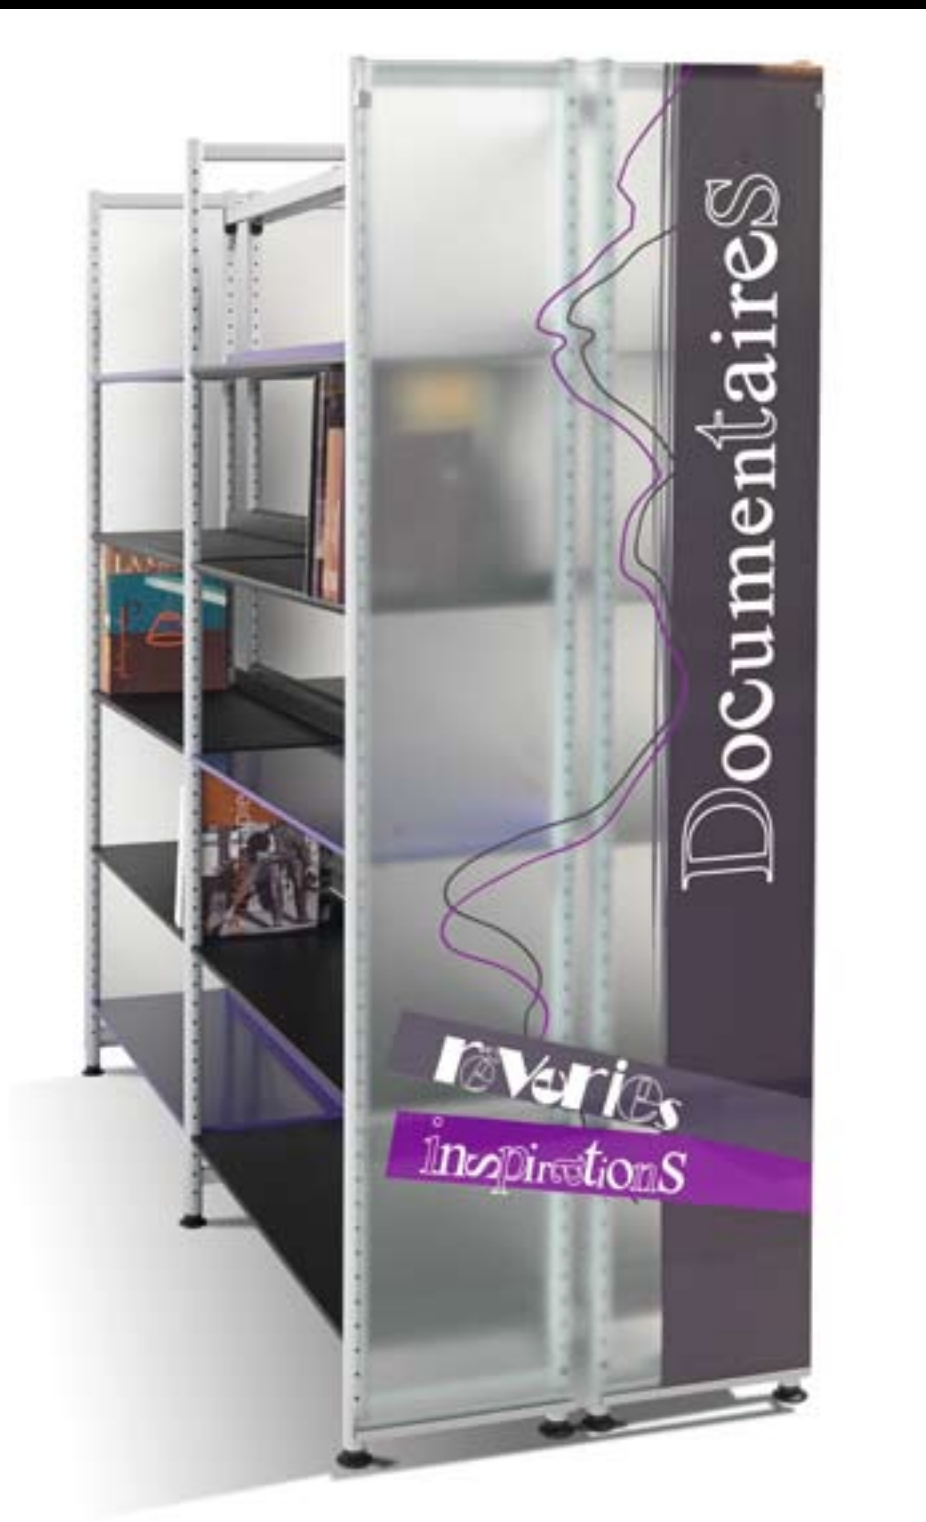

## KORYTEM shelving

Rectangular section frames (dimensions 30x20 mm) with holes every 32 mm for the easy positioning and adjustment of shelving accessories.

### Round section frames

Suggested presentation features single and double-sided bays with flat and adjustable sloping shelves. Easily accommodates different shelving heights. Two singled-sided bays placed back-to-back make one double-sided bay. The system is very flexible.

Patent connecting system

Metal insert matches the colour of the upright

Adjustable feet Ø 40 mm

## KORYTEM shelving

Round frames (Ø 30 mm) with holes every 32 mm for the easy positioning and adjustment of shelving accessories.

Narrow shelf bay (W 60 cm) fits across the end panels of a double-sided row of shelves or in cramped spaces.

Shallow shelving for use against a wall or against a standard shelving bay (D 310 mm).

Metal base on castors
